
WOODCOCK, SNIPE, WILD DUCK, NEWS

Woodcock season approaching

When I went on my first invited back to back days on Islay with my only gun dog 'Jessie' I didn't realise what was going to happen OK i had 2 driven pheasant shoots one at 'Mappowder' Dorset near Sherbourne and Llangollen of the A5 towards Corwen yes I saw the odd woodcock

but never thought anything about it, my trip to Islay saw me enter the **'woodcock club'** by shooting my not only first left and right but three in a day and I still think that this is a world record. But my life would never be the same I decided my shooting life would be Woodcock firstly than Snipe and Wild duck as a priority. So I got land with a good friend at Wigtown region Dumfries and Galloway, that lead to 4 years working the North Island of Bute I then got my own direct ground on Anglesey and having a house in Betws-y-coed I moved there I'm on my second year on Anglesey 12 at Wigtown and still get excited on every shoot day - Ive seen woodcock acrobatics that leave me speechless at times 'Yes I did the right thing' I'm happy. So here we go the first moon in November is

Alain from the Lebanon
last two weeks in
January a nice plump
woodcock

not far away (will it be a cold winter or a mild one) just the same all my shoots will provide adequate bird lifts, after all It has been a rarity we have had really poor hunting on any of our grounds. all shoots are supplemented by pheasant or partridge just in case!

So we have some dates left in January and I'm going to sell those out at £220 a gun per person per day instead of our normal rate of £285 this will include lunch and a goose flight on 1 day and in the evening woodcock or duck flying your teams choice.

If you would prefer 1 day for woodcock snipe wild duck generally and a further day mainly on pheasant partridge snipe some woodcock and pm duck flight we will do that day at £180 per gun in January of the island and in our Corwen shoot its 1 hour drive from Angelsey.

We have plenty of availability at Corwen for decent driven and walked up birds for £200 a day in November and December.

Note if your an individual gun looking to join a like minded group we will be happy to take you for given dates.

Enjoy our video of Angelsey last January

We look forward to hearing from you and remember we are agents for many other shoots in the UK.

A walk along the old railway line produced 3 lifts 2 the two guns I had with me and with a great pick up in thick brambles from my dog 'bracken' brought a smile to the clients faces
