Comments by clients 'The Rough Rovers' annual visit Phillip Moorsom and his team of guns arrived 5-6th January 2018 old hat but nice comment.

Dear Bob,

I have been meaning to get in touch to thank you and Steve for such an epic two days. A couple of the guns swore that if that was the last two days shooting they ever did they would die happy. I think it definitely made a difference the ground having a good rest. Ideally we would like to book in again next year and I think the first Friday and Saturday in the New Year would suit us again.

Regards Phil
